

2<sup>nd</sup> April 2019

Dear Parent/ Carer,

Please find attached the calendar for revision delivered by our subject specialists through Easter and in the run up to the exams. This will be a live document also available through the school website. As I said on the Parent Engagement Evening we cannot expect all students to attend all sessions, they have many subjects which demand their time. Our Heads of Department will work alongside our College Achievement Leads to iron out any problem where a student feels they are torn between sessions. It is important that students talk to us about these situations rather than worry unnecessarily.

In our commitment to provide a space which allows focus away from distractions a member of the Senior Leadership Team will be staffing the Resources area of the school throughout the Easter Break from 10am to 2pm. As we come closer to the exams we will also be running in school sessions with a Breakfast from 8 am where a morning exam is timetabled, and running drop in sessions at lunch before afternoon exams.

Some of the sessions are specifically designed for an invited audience, and where this is the case the Head of Department will make contact with students and parents directly.

We will continue to work with our students so that they are exam ready and offer the necessary support during what can be a stressful time. So ideally students will eat well, sleep well, revise in short bursts regularly, taking breaks and exercising all the way to their examinations.

Yours sincerely,

**Ben Smith**  
Assistant Headteacher
