

Getting Started with our Remote Portal

First setup your MFA details with Microsoft by going to:

<https://aka.ms/mysecurityinfo>

- Login using your school email address and system password provided
- Add sign-in method, e.g., “Phone” select “United Kingdom”
- enter phone number(s) you have access to while you login from home

“What is MFA?:

MFA (Multifactor Authentication) is used to verify yourself by using a phone or device that you own. It prevents 99.9% attacks on your online accounts.”

Next go to: www.nkacademy.co.uk

Click on:

 REMOTE PORTAL

Here you should see our large range of cloud apps which are available in school and from home.

e.g.
