

KEY STAGE 3 KNOWLEDGE ORGANISER

POWER PACK

YEAR 8 – TERM 2

How do Knowledge Organisers support learning?

What are Knowledge Organisers?

Knowledge organisers are **one-page documents that contain all of the key vocabulary and information needed to succeed at the highest level** for a particular topic or unit. They are available to all in each department for every subject/qualification. They provide a clear reference point and a backbone of understanding to make learning focused and meaningful. They are printed and glued into exercise books at the start of each topic or unit. Additional copies can also be provided if required.

What do Knowledge Organisers look like?

Each Knowledge Organiser comprises of a range of colour-coded tables of key vocabulary, definitions, information and summaries with each table's contents numbered. **The colour-coding and numbering makes each piece of content easily identifiable and ensures that learning is incremental and manageable.** All Knowledge Organisers provide information about the Year, Topic/Unit Question and Term. There are also subtle differences that relate to subject-specific requirements.

Why are Knowledge Organisers important?

Having all of this **key information in one place makes it easily accessible before during and after the study of a particular unit or topic**. Teachers continuously refer to the content of Knowledge Organisers within lessons and to support independent learning where they can be used to develop and consolidate knowledge. Therefore, Knowledge Organisers form the backbone of learning across the academy.

How do teachers use Knowledge Organisers?

Each department has carefully created each Knowledge Organiser so that it is **individually tailored to the curriculum taught at North Kesteven**. Teachers have selected the most key building blocks (knowledge and information) for each topic or unit provide clear support to develop knowledgeable and skilled subject experts. The knowledge and information contained on the Knowledge Organiser is carefully shared, identified and practised within and beyond lessons to develop confidence and fluency.

Key Concepts - Algebra			
1	Quadratic	A quadratic expression is of the form $ax^2 + bx + c$	Example of quadratic expressions: $8x^2 - 3x + 7$
2	Factorising Quadratics	$x^2 + bx + c$ find the two numbers that add to give b and multiply to give c.	$x^2 + 7x + 10 = (x + 5)(x + 2)$
3	Difference of Two Squares	An expression of the form $a^2 - b^2$ can be factorised to give $(a + b)(a - b)$	$x^2 - 25 = (x + 5)(x - 5)$ $16x^2 - 81 = (4x + 9)(4x - 9)$
4	Rearranging Formulae	Use inverse operations on both sides of the formula (balancing method) until you find the expression for the letter.	Make x the subject of y $\begin{aligned} y &= \frac{2x-1}{x} \\ y &= 2 - \frac{1}{x} \\ yz + 1 &= 2x \\ \frac{yz+1}{2} &= x \end{aligned}$
5	Quadratic	A quadratic expression is of the form $ax^2 + bx + c$	Example of quadratic expressions: $8x^2 - 3x + 7$
English verb (infinitive) English past participle German verb (infinitive) German past participle			
To stay	stayed	wohnen	gewohnt
To make/do	Made/done	machen	gemacht
To eat	eaten	essen	gegessen
To sleep	slept	schlafen	geschlafen
To play	played	spielen	gespielt
To see	seen	sehen	gesehen

How do students use Knowledge Organisers?

There is regular testing within lessons on the understanding of the content of each Knowledge Organiser – this is carefully designed into the sequencing of the curriculum and lessons to gradually build and develop rather than overwhelm. Regular independent learning is structured around Knowledge Organisers. **The real beauty of the Knowledge Organiser is its ability to support students and parents independently outside of lessons.**

Year 8 | Term 2 and 3 | How have Romantic and Gothic influences shaped literary writing? English

WHAT IS THE GOTHIC?

1	Gothic writers	<ul style="list-style-type: none"> Mary Shelley wrote 'Frankenstein' when she was 18 years old. Bram Stoker's 'Dracula' has had a huge influence on modern films. Edgar Allan Poe was a writer of many gothic short stories. Charles Dickens was also a writer of 'Great Expectations'. Susan Hill's 'The Woman In Black' adheres to the gothic conventions. Emily Bronte creates fear in 'Wuthering Heights'.
2	Gothic conventions	<ul style="list-style-type: none"> The first Gothic novels appeared in the late 18th Century. Gothic fiction was a branch of the larger Romantic movement that tried to create strong emotions in the reader. Horace Walpole's <i>The Castle of Otranto</i> is usually regarded as the first 'Gothic' novel. 'Gothic' can refer to the type of architecture that was prominent or popular in what is now Germany during the medieval period. Writers use setting and speech to build suspense. Common subject matter includes the supernatural, family curses, mystery, madness and death. Pathetic fallacy is where the weather creates a mood.
3	Gothic values	<ul style="list-style-type: none"> Gothic writers are preoccupied with the supernatural, because they believe that not everything has a scientific explanation. They believed that nature is 'sublime': it has the power to simultaneously inspire awe and terror in people. They challenged society's expectations about propriety and emotion. To show wild emotion was seen as impolite, but not to the Gothic writers, who often depicted passion and rage. They explored the role of the female characters: often in gothic texts, there are powerful female roles, which contrasted contemporary society. They were very interested in the psychological exploration of characters, particularly in relation to the theme of madness.

	VOCAB	DEFINITION	EXAMPLE
1	Misanthropic	Having or showing a dislike of other people; unsociable.	Heathcliff is a misanthropic character.
2	Retribution	A punishment inflicted on someone as vengeance for a wrong or criminal act.	He wanted retribution
3	Tyrannical	Exercising power in a cruel or arbitrary way.	She was a tyrannical leader.
4	Recluse	A person who lives a solitary life and tends to avoid other people.	She is a recluse and keeps away from everyone.

CONTEXT - GOTHIC LITERATURE

- The term 'gothic' comes from the Germanic tribe 'the Goths,' who played a part in the fall of the Roman Empire. The Goths are sometimes called barbarians. They destroyed a lot of Roman architecture and replaced it with buildings in the gothic style.
- Medieval Europe is sometimes referred to as the 'Dark Ages'. Some believe that people lived in fear due to superstition and ignorance and that not much learning took place in this time. Castles with gargoyles were built to ward off evil spirits, this architecture is known as 'Gothic' e.g. Notre Dame.
- Figures from the Age of Enlightenment or 'the Age of Reason' (an intellectual & philosophical movement in the 17th & 18th centuries), believed that scientific progress was the only way to advance society, and great discoveries were made in this time. They tried to rid Europe of superstition and ignorance through promoting reason and logic.
- A group of poet, artists and thinkers called the Romantics challenged this because they believed that not everything can be explained by science, and too much reason rids the world of beauty and mystery.
- The Gothic genre first emerged from the Romantic movement. It used art and ideas from the Dark Ages, wild emotion and nature to contrast with modern ideas about science and logic.
- Gothic writing transformed into the format of the extremely popular Victorian ghost story.
- Today, we use the term 'gothic' widely to describe art, style, clothing (i.e. Alexander McQueen couture) music and film (i.e. Tim Burton films). The style and genre is very much still alive.

TYPICAL GOTHIC GENRE FEATURES		TYPICAL GOTHIC SETTINGS
1	Death and darkness	Wild landscapes
2	Supernatural elements	Medieval style castles, churches or abbeys
3	Curses or prophecies	Gloomy, decayed and ruined environments
4	Madness /paranoia or intense emotion	Volatile and threatening weather
5	Mystery, terror and suspense	Remote, uninhabited places

TYPICAL GOTHIC CHARACTERS	
1	Mysterious characters with high social status
2	Female or feminine characters that are threatened by powerful men
3	Threatening women who are monsters
4	Powerful, tyrannical male figure
5	Villains, vampires, ghosts, werewolves and giants

CALCULATION RULES		
1	Solving equations	Solving equations focuses on finding a numerical answer for the variable in an equation.
2	Expanding brackets	Everything on the inside is multiplied by the outside.
3	-1, 2, 5, 8	Find the next term by working out the common difference e.g. +3 therefore the next term is 11.
4	3,7, 11, 15	The nth term, find the common difference = 4 (times table). $4n - 1$
5	1,1,2,3,	To get the next term in this Fibonacci sequence add together the previous two numbers. $2+3 = 5$.
6	$3n + 1$	The 10 th term would be $3 \times 10 = 30$ then add 1 so 31.
7	Ratio	Ratio is written in the form 2:3 or 3:5:7.
8	Simplest form	Ratios in their simplest form – smallest possible numbers when all parts divided by the same number.
9	Sharing into a ratio	Use the ratio to identify how many parts equate to which total and use division to calculate singular and whole parts of ratios.

KEY FORMULAE OR CONVERSIONS

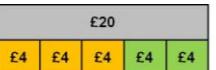

1	Solving Equations	When solving for any equation, work backwards and do the inverse for each operation.
2	$4n-1$	4 times table then subtract 1.
3	Scales	Sale factors are used to convert from drawings to real life. Scales can be written as ratios and scale factors are multipliers.

SHARING INTO A RATIO

Sharing in a ratio

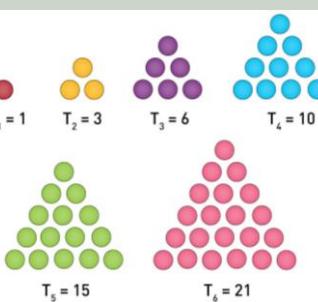

You can **divide a total in a ratio** by considering the ratio as fractions

Bob and Betty share £20 in the ratio 3:2

Bob's share	Betty's share
of £20 = £12	$\frac{2}{5}$ of £20 = £8

STEP BY STEP

1	<p>John and Sarah share some sweets in the ratio 3:7. Sarah gets 16 more sweets. How many sweets are there all together?</p>	$7-3 = 4$ <p>Sarah has 4 MORE parts</p> $16 \div 4 = 4$ <p>(1 part = 4 sweets)</p> $7 \times 4 = 28$ <p>(Sarah's share)</p> $3 \times 4 = 12$ <p>(John's share)</p> $28 + 12 = 40$

FULLY UTILISE YOUR KNOWLEDGE ORGANISERS

Use the following templates alongside the corresponding instructions to carry out your independent work.

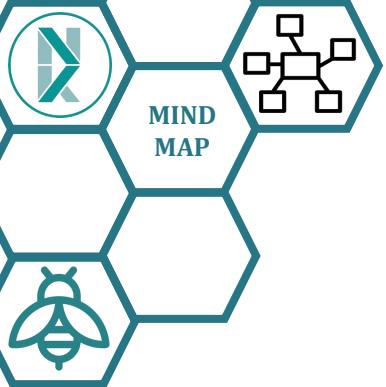

HOW DO I MAKE USEFUL SKETCH NOTES?

- 1) Pick a focus area for your notes – this could be a topic, theme, exam question, unit question, etc.
- 2) Make notes in a logical order but rather than making detailed written notes, use a range of the following techniques:
 - Use upper case (capital letters) to emphasise particular words.
 - Turn words into images e.g. the A in shArk turns into a fin;
 - Add images and/or icons into the text;
 - Use diagrams and tables to break down key areas;
 - Use arrows and lines to link different things together;
 - Use different shapes, thought-bubbles, etc.
 - Use a range of colours to emphasise different aspects of your notes/page.

Once you have completed your sketch note page try photocopying it in black and white and then use colours to RAG-rate the information – you will then create a real focus for your revision by prioritising first the Red and then the Amber!

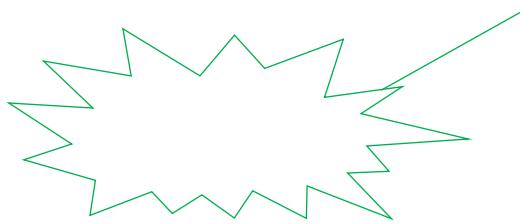

MIND MAP

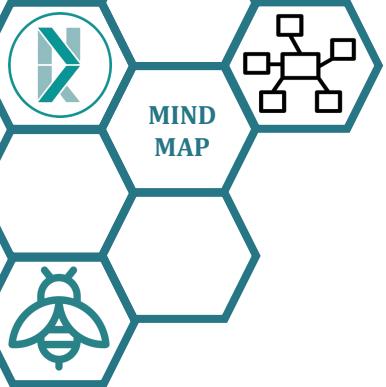

HOW DO I CREATE AN EFFECTIVE MIND MAP?

- 1) Decide on the overall focus – this could be a topic/unit question, an exam question, key theme, etc – and then write this in the centre of the page.
- 2) Break this down into key areas, factors, ideas, etc and add these as main branches around the centre.
- 3) Break these main branches down further by adding more information – each main branch might break down into several more and each of these into several more.
- 4) Colour-code your branches, highlight key information and add any images, icons, diagrams, etc.
- 5) TOP TIP: Write on your branches and only use the most key information and words – this will help you to fit as much as possible on one page!

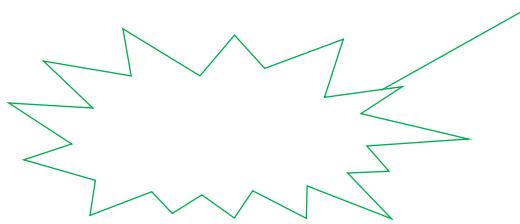

The aim of a mind-map is to fit as much as possible all on one page! Therefore, avoid writing in full sentences and focus on using the branches to organise your notes.

FLASH
CARDS

HOW DO I MAKE FLASH CARDS?

- 1) Think about what you want the focus of each card to be – it could be a key question, piece of vocabulary, exam question, factor, etc.
- 2) Record this on the 'front' card (left-hand column) – adding an image, diagram, some colour, etc, to make it memorable, is helpful. You can also number your cards.
- 3) Think about what information links to this – it could be written notes, an answer to a question, a definition, potential ideas, etc.
- 4) Record this on the 'back card' – try to break it down into bullet-points, use icons and imagery, colour, diagrams, once again to make it memorable.
- 5) Cut your cards out, fold the middle and glue them together – you can now use them to test yourself... or even better, get somebody else to test you.

HOW DO I DEVELOP MY EXPERT WRITING?

- 1) Start by putting your topic title or question as a sub-heading.
- 2) Begin by identifying the key points or aspects and writing a summary of this – think about the key vocabulary needed.
- 3) Next, try to develop these main ideas one at a time – aim to use connectives to help you do this e.g. because, therefore, so.
- 4) Now try to link these ideas to examples or evidence – you can do this separately or alongside each area in ‘step 3’.
- 5) To complete your expert piece of writing, aim to summarise the overall main point or argument or conclusions.

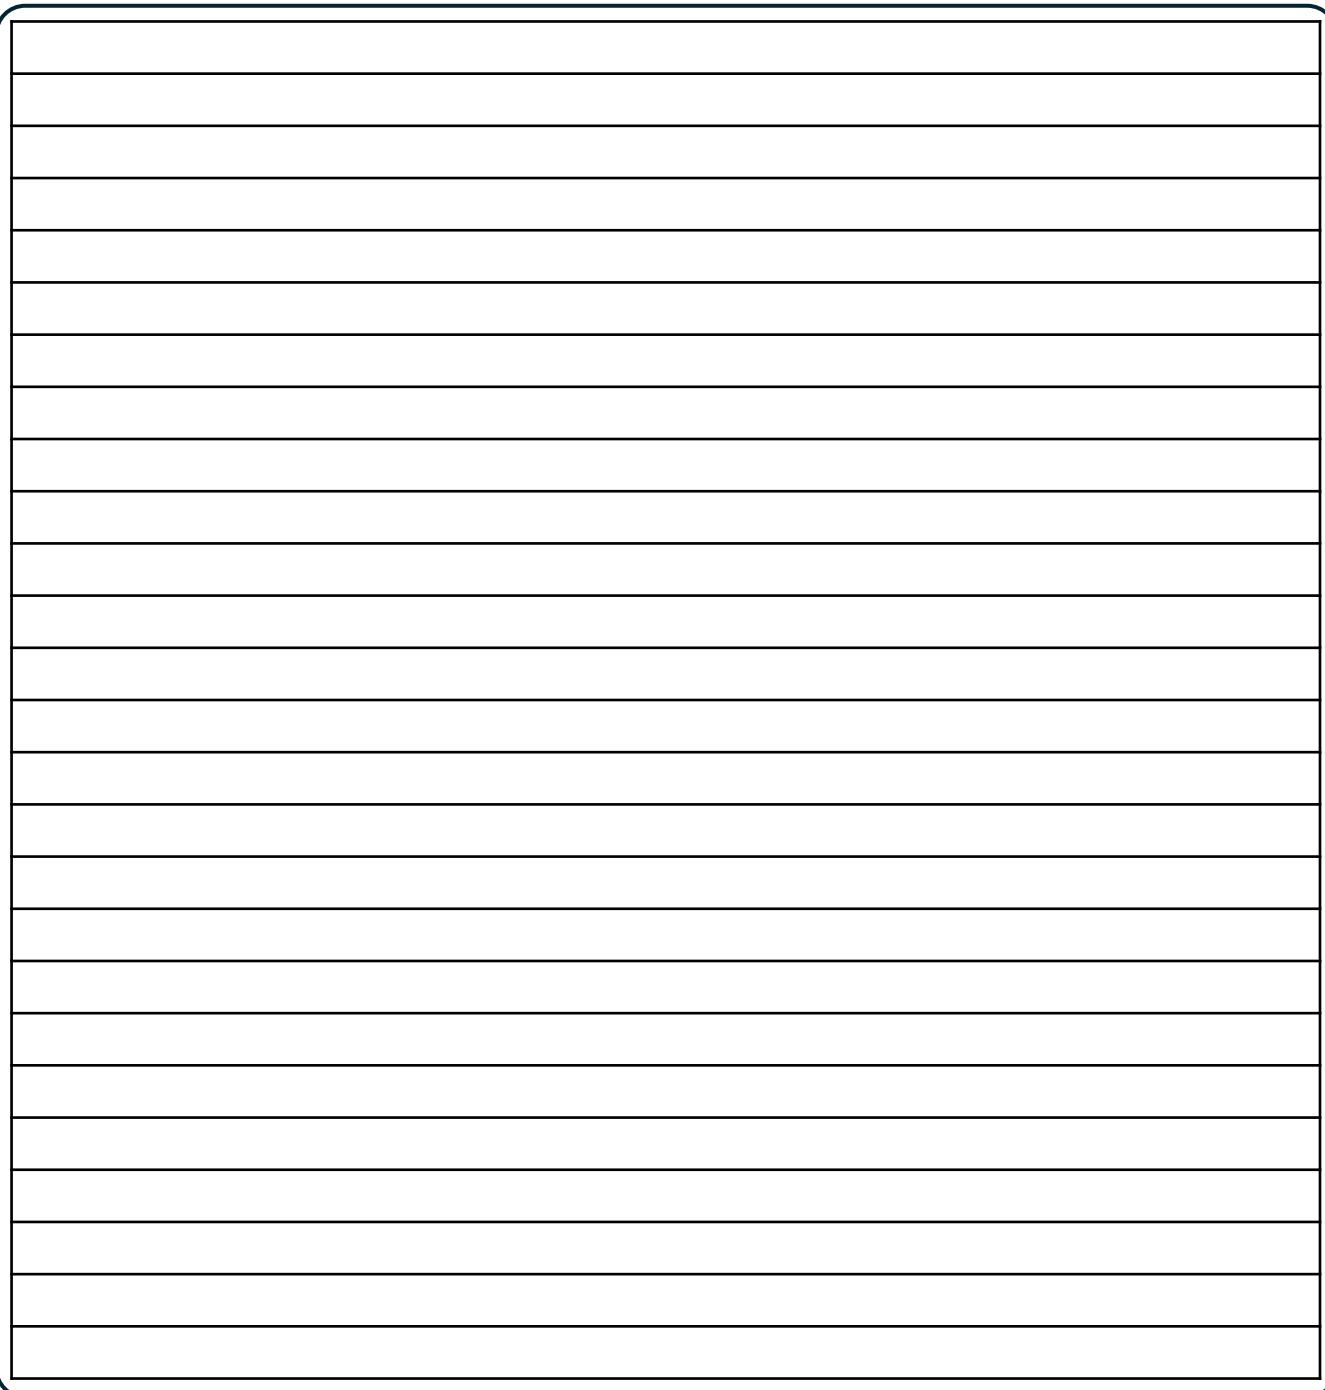

Talk to your teacher about the specific types of language, sentences and vocabulary that you can use to develop your 'writing like an expert' – this can vary from subject to subject and skill to skill (This is why teachers often provide you with sentence starters).

HOW DO I MAKE AN EFFECTIVE LOW-STAKES QUIZ

- 1) Choose something on your knowledge organiser and write a question where this is the answer – write this in the top box of the card.
- 2) Write 3-5 possible answers in the bottom box' – label these with numbers or letters e.g. a) to e).
- 3) Write the correct answer on the back of the card for future reference, so that you can easily check if you were right or wrong.
