

**KEY STAGE 3 KNOWLEDGE ORGANISER**

# **POWER PACK**

**YEAR 9 – TERM 2**

# How do Knowledge Organisers support learning?

## What are Knowledge Organisers?

Knowledge organisers are **one-page documents that contain all of the key vocabulary and information needed to succeed at the highest level for a particular topic or unit.** They are available to all in each department for every subject/qualification. They provide a clear reference point and a backbone of understanding to make learning focused and meaningful. They are printed and glued into exercise books at the start of each topic or unit. Additional copies can also be provided if required.

## What do Knowledge Organisers look like?

Each Knowledge Organiser comprises of a range of colour-coded tables of key vocabulary, definitions, information and summaries with each table's contents numbered. **The colour-coding and numbering makes each piece of content easily identifiable and ensures that learning is incremental and manageable.** All Knowledge Organisers provide information about the Year, Topic/Unit Question and Term. There are also subtle differences that relate to subject-specific requirements.

| Year 7   Term 4  |  | HISTORY  |   |
|--|--|--|---|
| How far did the Civil War justify the execution of the King?   |  | 160316251629164016416441649165316591660  |   |
|                                       |  |                                     |   |
| CHARLES I  |  | MISCELLANEOUS  |   |
| 1 Divine Right of Kings  | Kings were appointed by God alone.   | 1 Tyrant   | A cruel and oppressive ruler  |
| 2 Charge   | An accusation, typically one formally made against a prisoner brought to trial.  | 2 Nobles   | Social class normally ranked just below royalty.  |
| 3 Verdict  | A decision on an issue of fact in a civil or criminal case or an inquest.  | 3 Customs Duties   | Tax paid on goods coming in and out of the country.   |
| 4 Trial  | A formal examination of evidence by a judge, typically before a jury, in order to decide guilt in a case of criminal or civil proceedings. | 4 Militia Ordinance  | Claiming the right to appoint military commanders without the king's approval.  |
| 5 Death Warrant  | An official order for the execution of a condemned person.   | 5 Treason  | The crime of betraying one's country, especially by attempting to kill or overthrow the sovereign or government.  |
| POLITICS AND RELIGION  |  | 6 Siege  | Military operation in which enemy forces surround a town or building, cutting off essential supplies, with the aim of compelling those inside to surrender. |
| 1 Stuart   | Royal house of Scotland, England, Ireland and later Great Britain.   | 7 New Model Army   | Army formed by the Parliamentarians during the Civil War.   |
| 2 Protestant   | The part of the Christian Church that split away from Rome in the 16th century.  | SPEAKING LIKE AN HISTORIAN   |   |
| 3 Catholic   | The Christian church controlled by the Pope in Rome.   | 1 Infer  | To come to a conclusion based on evidence and reasoning.  |
| 4 Puritan  | Christians who wanted to worship God in a simple way. They were often strict and didn't trust anything that gave pleasure.                 | 2 Factors  | The key, deciding pieces of information to explain an event.  |
| 5 Cavaliers  | People who supported the King.   | 3 Historiography   | The study of writing history.   |
| 6 Roundheads   | People who supported Parliament.   | 4 Chronology   | Arranging events into order by date and/or time.  |
| 7 House of Lords   | The upper house of the Parliament of the United Kingdom.   | 5 Theme  | The main idea behind a discussion.  |
| 8 House of Commons   | The lower house of the Parliament of the United Kingdom.   | KEY QUESTIONS  |   |
| 9 Lord Protector   | A regent in charge of a kingdom during the minority, absence, or incapacity of the sovereign.  | What kind of King was Charles I?   | Why were MPs not happy with Charles?  |
|  |  | Why were Puritans worried when Charles became King and married Henrietta?  | Why was Charles forced to call parliament?  |
|  |  | What major battles were there in the civil war?  | Why was Oliver Cromwell chosen to be Lord Protector?  |
|  |  | What was Charles charged for?  | Why was the Monarchy restored after Oliver Cromwell's death?  |
| KEY PEOPLE   |  | OTHER KEY PEOPLE   |   |
| <br>Charles I<br>1625 - 1649          |  | <br>Oliver Cromwell<br>1599 - 1658 |   |
| <br>Prince Rupert<br>1619 - 1682    |  | <br>William Laud<br>1573 - 1633   |   |

| <br>Oliver Cromwell<br>1599 - 1658  |  | <br>John Bradshaw<br>1602 - 1659  |   |

## Why are Knowledge Organisers important?

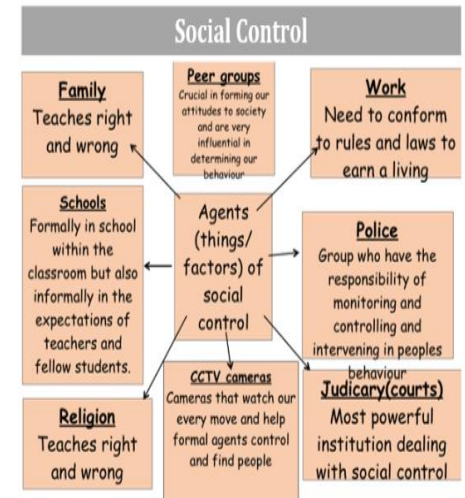

Having all of this **key information in one place makes it easily accessible before during and after the study of a particular unit or topic**. Teachers continuously refer to the content of Knowledge Organisers within lessons and to support independent learning where they can be used to develop and consolidate knowledge. Therefore, Knowledge Organisers form the backbone of learning across the academy.

## How do teachers use Knowledge Organisers?

Each department has carefully created each Knowledge Organiser so that it is **individually tailored to the curriculum taught at North Kesteven**. Teachers have selected the most key building blocks (knowledge and information) for each topic or unit provide clear support to develop knowledgeable and skilled subject experts. The knowledge and information contained on the Knowledge Organiser is carefully shared, identified and practised within and beyond lessons to develop confidence and fluency.

| Key Concepts - Algebra |                           |  |  |
|------------------------|---------------------------|--|--|
| 1                      | Quadratic                 | A quadratic expression is of the form $ax^2 + bx + c$  | Example of quadratic expressions: $8x^2 - 3x + 7$  |
| 2                      | Factorizing Quadratics    | $x^2 + bx + c$ find the two numbers that add to give b and multiply to give c.                                       | $x^2 + 7x + 10 = (x + 5)(x + 2)$   |
| 3                      | Difference of Two Squares | An expression of the form $a^2 - b^2$ can be factorised to give $(a + b)(a - b)$                                     | $x^2 - 25 = (x + 5)(x - 5)$<br>$16x^2 - 81 = (4x + 9)(4x - 9)$   |
| 4                      | Rearranging Formulae      | Use inverse operations on both sides of the formula (balancing method) until you find the expression for the letter. | Make x the subject of $y = \frac{2x-1}{x}$<br>$yz = 2x - 1$<br>$yz + 1 = 2x$<br>$\frac{yz + 1}{2} = x$ |
| 5                      | Quadratic                 | A quadratic expression is of the form $ax^2 + bx + c$  | Example of quadratic expressions: $8x^2 - 3x + 7$  |

| English verb (Infinitive) | English past participle | German verb (Infinitive) | German past participle |
|---------------------------|-------------------------|--------------------------|------------------------|
| To stay                   | stayed                  | wohnen                   | gewohnt                |
| To make/do                | Made/done               | machen                   | gemacht                |
| To eat                    | eaten                   | essen                    | gegessen               |
| To sleep                  | slept                   | schlafen                 | geschlafen             |
| To play                   | played                  | spielen                  | gespielt               |
| To see                    | seen                    | sehen                    | gesehen                |

## How do students use Knowledge Organisers?

There is regular testing within lessons on the understanding of the content of each Knowledge Organiser – this is carefully designed into the sequencing of the curriculum and lessons to gradually build and develop rather than overwhelm. Regular independent learning is structured around Knowledge Organisers. **The real beauty of the Knowledge Organiser is its ability to support students and parents independently outside of lessons.**

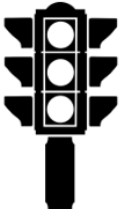

# - SUPER 6 STRATEGIES -

| Strategy  | Activity  | Imagery  |
|---|---|--|
| <b>RECALL</b><br> | <b>3x3x3:</b> <ol style="list-style-type: none"> <li>Read 3 key words and definitions or pieces of information from one coloured box, 3 from another coloured box, and a final 3 from another coloured box.</li> <li>Return to the first 3 words but this time cover up the key words and see if you can recall them by just reading the definitions – repeat for the other 6 words.</li> <li>Repeat the previous step but this time cover up the definitions and see if you can recall them by just reading the key word.</li> <li>Repeat using a combination of step 2 and step 3.</li> </ol> |   |
|   | <b>Race to the Bottom/Top:</b> <ol style="list-style-type: none"> <li>Pick one of the coloured boxes on the <i>Knowledge Organiser</i>.</li> <li>Starting from the top, cover the key word and see if you can recall it by reading the definition.</li> <li>See how far down the box you can get.</li> <li>Repeat but this time cover up the definition and see if you can recall it by just reading the key word.</li> </ol>   |  |

**RECALL** – these two strategies focus on your ability to bring knowledge, vocabulary and key information to mind quickly.

| Strategy  | Activity   | Imagery  |
|---|--|--|
| <b>SYNTHESIS</b><br> | <b>Answer Planning:</b> <ol style="list-style-type: none"> <li>Write down a key question for the topic on a piece of paper</li> <li>Try to recall as many key pieces of vocabulary and knowledge as possible that link to this.</li> <li>Use the <i>Knowledge Organiser</i> to see what you have missed.</li> <li>Add these in a different colour.</li> </ol>  |   |
|   | <b>Categorising:</b> <ol style="list-style-type: none"> <li>Pick one of the coloured boxes on the <i>Knowledge Organiser</i> and consider the heading/category.</li> <li>Cover up the <i>Knowledge Organiser</i> and on a separate piece of paper, write down as many key words or pieces of information that you can that relate to the heading/category.</li> <li>Uncover the <i>Knowledge Organiser</i>, look at what you have missed and add these in a different colour pen.</li> <li>Get somebody to test you on the words you have added, and then re-attempt steps 1-3.</li> </ol> |  |

**SYNTHESIS** – these two strategies focus on applying your knowledge to show your thinking, understanding and reasoning.

| Strategy   | Activity  | Imagery  |
|--|---|--|
| <b>REFLECTION</b><br> | <b>RAG-rate:</b> <ol style="list-style-type: none"> <li>On completion of a unit of work get somebody to test you on each aspect of the <i>Knowledge Organiser</i>.</li> <li>RAG-rate each piece: Red = don't know it, Amber = partly know it, Green = know it.</li> <li>Revisit all Amber pieces frequently, and Red pieces more frequently.</li> <li>After a set period of time, RAG-rate the knowledge organiser again and repeat the process.</li> </ol> |   |
|  | <b>Booster:</b> <ol style="list-style-type: none"> <li>Revisit a piece of lesson work or an exam answer.</li> <li>Use the <i>Knowledge Organiser</i> to locate any key vocabulary or relevant information that could be added to develop the work further.</li> <li>Annotate the original piece of work to develop your thinking.</li> <li>Re-write or type up the improved version of the work or exam answer.</li> </ol>                                  |  |

**REFLECTION** – these two strategies focus on improving your existing knowledge and understanding by developing it further.

Year 9 | Term 2 and 3 | How Does Shakespeare explore ideas of dispossession and colonisation in ‘The Tempest’

English

| CHARACTERS |                     |   |
|------------|---------------------|---|
| 1          | Prospero            | The play’s protagonist, and father of Miranda.  |
| 2          | Miranda             | The daughter of Prospero.   |
| 3          | Ariel               | Prospero’s spirit helper.   |
| 4          | Caliban             | Another of Prospero’s servants.   |
| 5          | Ferdinand           | Son and heir of Alonso.   |
| 6          | Alonso              | King of Naples and father of Ferdinand.   |
| 7          | Sebastian           | Alonso’s brother.   |
| 8          | Gonzalo             | An old, honest lord.  |
| 9          | Trinculo & Stephano | Trinculo, a jester, and Stephano, a drunken butler, are two minor members of the shipwrecked. |

| THEMES |                         |  |
|--------|-------------------------|--|
| 1.     | Freedom and Slavery     | The play explores themes of freedom and imprisonment, with the island acting as a trap where characters, following the shipwreck, have no immediate escape.                  |
| 2.     | Empathy and Forgiveness | Empathy, the ability to understand others’ feelings, is key to forgiveness, and in The Tempest, some characters display it while others are self-absorbed.                   |
| 3.     | Nature Vs Nurture:      | The Tempest explores nature versus nurture, contrasting the island’s natural beauty with characters like Miranda, symbolising innocence, and Caliban, representing savagery. |

| PLOT |                |   |
|------|----------------|---|
| 1.   | Brief synopsis | The Tempest is a play about magic, betrayal, love, and forgiveness, set on an island where Prospero, the ex-Duke of Milan, lives with his daughter, Miranda, and magical creatures. The story unfolds with a storm, a plot to murder the King of Naples, and a romance between Miranda and Ferdinand, culminating in forgiveness and a return home.   |
| 2.   | Key events     | <ul style="list-style-type: none"><li>• A ship is caught in a tempest and begins to sink.</li><li>• Prospero tells Miranda that he caused the storm.</li><li>• Ariel fetches Ferdinand, who falls in love with Miranda.</li><li>• Antonio and Sebastian plot to kill Alonso, the King of Naples.</li><li>• The ship’s jester and butler meet Caliban and feed him alcohol.</li><li>• Caliban suggests that they should kill Prospero, and Ariel overhears.</li><li>• Prospero uses magic to scare Alonso and spoil Caliban’s plot.</li><li>• Prospero’s daughter, Miranda, marries the son of King Alonso.</li><li>• Prospero forgives the passengers for their former betrayals.</li></ul> |

| # | AREA OF CONTEXT          | FURTHER INFORMATION  |
|---|--------------------------|--|
| 1 | William Shakespeare      | Born in 1564 in Stratford-upon-Avon, William Shakespeare received a grammar school education but did not pursue formal studies further; he married Anne Hathaway in 1582 and had three children. Around 1590, Shakespeare moved to London, achieving success as a playwright and actor, eventually becoming part-owner of the Globe Theatre and a favourite of both Elizabeth I and James I. Shakespeare retired wealthy and famous to Stratford-upon-Avon, where he died in 1616 at the age of 52.              |
| 2 | Slavery                  | Slavery is a central theme in The Tempest, with various forms of servitude creating tension throughout the play. Ariel, an airy spirit, is bound to Prospero’s will and promised freedom if he performs his duties, including entrancing the island’s visitors. Caliban, depicted as villainous, is also enslaved by Prospero, who took the island from him and maintains control through threats and punishment.  |
| 3 | Where the play came from | The Tempest was written around 1610–1611, reflecting the era’s fascination with exploration, colonisation, and encounters with indigenous peoples, inspired partly by the 1609 shipwreck of the Sea Venture. The play explores themes of survival, power, and control, set against the backdrop of the "New World" and European expansion. The supernatural is central, with Prospero's magic and Ariel's mysticism symbolising Renaissance beliefs in unseen forces and humanity’s curiosity about the unknown. |
| 4 | Colonialism              | The Tempest was written during the Elizabethan era, a time of European exploration and colonisation in regions like the Americas, Africa, and Asia. Colonisation was often justified by portraying indigenous peoples as "savages" needing civilisation, a view reflected in the play. Caliban symbolises colonised peoples, with his treatment by Prospero illustrating themes of control and exploitation.   |

| KEY VOCABULARY |                |   |
|----------------|----------------|---|
| 1              | Tempest        | The violent storm conjured by Prospero to shipwreck his enemies on the island, setting the play’s events in motion.   |
| 2              | Usurpation     | The wrongful seizure of power, exemplified by Antonio’s betrayal of Prospero.   |
| 3              | Reconciliation | The process of forgiveness and mending relationships, which is key to the play’s resolution.  |
| 4              | Colonisation   | The process by which a country establishes control over a foreign territory, often exploiting its resources and imposing its culture and governance on the indigenous people. |
| 5              | Redemption     | the act of atoning for past wrongs or mistakes, seeking forgiveness, and achieving moral or spiritual recovery.   |

# Year 9 | Term 2 | Quadratic equations, Formulae, Constructions and Circles

MATHS

## CALCULATION RULES

|   |                                  |   |
|---|----------------------------------|---|
| 1 | Factorising quadratics           | Factorising quadratics will usually use 2 brackets. At least one value of the variable will be in <b>EACH</b> bracket.              |
| 2 | DOTS (Difference of two squares) | Square root each value and but each answers into each bracket. There will always be a - in one and a + in the other.                |
| 3 | Solving quadratics               | There will usually be two solutions for x. After factorising the solutions are the inverse of the numerical values in the brackets. |
| 4 | Rearranging                      | Follows the same process as solving an equation but the variables and numbers don't get cancelled out and stay.                     |
| 5 | Construction lines               | <b>ALWAYS</b> leave the construction lines made to get to the answer. They prove you completed the question as intended.            |
| 6 | Bisector constructions           | When the compasses have been aligned <b>DO NOT</b> change their position, it is key they remain the same to find the true bisector. |

## KEY FORMULAE OR CONVERSIONS

|   |                           |  |
|---|---------------------------|--|
| 1 | DOTS                      | $a^2 - b^2 = (a - b)(a + b)$                         |
| 2 | Arc Length                | $L = \left(\frac{\theta}{360}\right) \times d$       |
| 3 | Sector Area               | $A = \left(\frac{\theta}{360}\right) \times \pi r^2$ |
| 4 | Surface area of Cylinders | $SA = (2\pi r^2) + (2\pi rh)$                        |
| 5 | Volume of Cylinders       | $V = \pi r^2 h$                                      |
| 6 | Area of a circle          | $A = \pi r^2$  |

## CALCULATING ARC LENGTH

$$\text{Arc Length} = \frac{115}{360} \times \pi \times 8 = 8.03\text{cm}$$

## ANGLE BISECTOR WITH CONSTRUCTION LINES

## SOLVING QUADRATIC EQUATIONS BY FACTORISING

ple Solve  $x^2 - 8x + 15 = 0$

$$(x - 3)(x - 5) = 0$$

$x - 3 = 0$   
 $x = 3$

$x - 5 = 0$   
 $x = 5$

## VOCABULARY

|    |                                 |   |
|----|---------------------------------|---|
| 1  | Radius                          | The distance from the centre of a circle to the circumference.  |
| 2  | Diameter                        | The total distance across the width of a circle through the centre.   |
| 3  | Circumference                   | The total distance around the outside of a circle.  |
| 4  | Sector                          | The region of a circle enclosed by two radii and their intercepted arc.   |
| 5  | Bisector                        | This cuts something in half.  |
| 6  | Perpendicular                   | Lines that intersect at a $90^\circ$ angle.   |
| 7  | Perpendicular bisector          | Cutting a line perfectly in half with another line that is perpendicular to the original line.                                |
| 8  | Angle bisector                  | The line that cuts an angle exactly in half.  |
| 9  | Formulae                        | A collection of terms that cannot be solved before substituting variables for numbers. E.g. Area of a circle: $A = \pi r^2$ . |
| 10 | Making the subject of a formula | The process of rearranging formulae so that the specified variable is by itself. Used to allow to calculate missing values.   |

## STEP BY STEP

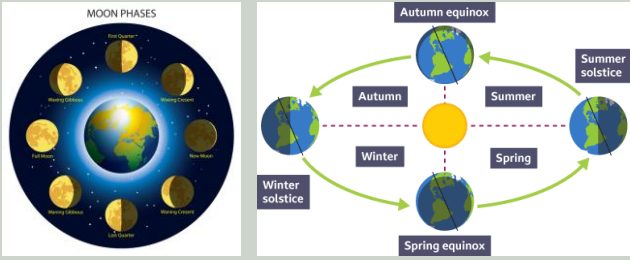

|   |                                 |   |
|---|---------------------------------|---|
| 1 | Rearrange to make b the subject | $A = \frac{bh}{2}$ $\times 2 \quad \times 2$ $2A = bh$ $\div h \quad \div h$ $\frac{2A}{h} = b$ |
|---|---------------------------------|---|

THE STRUCTURE OF THE EARTH

PHASES OF THE MOON & THE SEASONS

KEY VOCABULARY

|    |                       |   |
|----|-----------------------|---|
| 1  | Sedimentary rock      | Rock formed from compacted deposits.  |
| 2  | Igneous rock          | Rock formed from molten rock  |
| 3  | Metamorphic rock      | Sedimentary or igneous rock, changed over time by heat + pressure.  |
| 4  | Mineral               | An inorganic element or compound found in nature with a particular composition, appearance and properties.  |
| 5  | Porous (rock)         | A rock which absorbs water.   |
| 6  | Strata                | Layers of deposited rock.   |
| 7  | Ceramic               | Crystalline and/or glassy, hard and unreactive materials, often heat-treated.   |
| 8  | Galaxy                | Millions or billions of stars, planets and dust held together by gravity (Earth is in the Milky Way).   |
| 9  | Exoplanet             | A planet not in the Solar System.   |
| 10 | Universe              | All existing space and matter .   |
| 11 | A light year          | An astronomical measure of distance .   |
| 12 | Asteroid              | A small, rocky body orbiting the Sun.   |
| 13 | Planet                | A rocky body orbiting the Sun.  |
| 14 | Constellation         | A group of stars forming a recognisable pattern.  |
| 15 | Geocentric model      | A model which placed Earth at the Centre of the universe.   |
| 16 | Heliocentric model    | A model which places the Sun at the centre.   |
| 17 | The Periodic Table    | An organised list of all known elements arranged into groups and periods.   |
| 18 | Separation techniques | Filtration (solid/liquid mixtures), distillation (liquid mixtures), crystallisation (dissolved solids) and chromatography (pure substances from solutions). |

THE GREENHOUSE EFFECT

Carbon Cycle

THE ROCK CYCLE

Metals are extracted from ores by reduction with carbon or electrolysis.

STRUCTURE OF AN ATOM

Example: the Carbon-12 atom

| KEY VOCAB |                   |   |           | IMPACTS               |   |  |                  |   |
|-----------|-------------------|---|-----------|-----------------------|---|--|------------------|---|
| 1         | Tropical Storm    | An intense low-pressure weather system with winds over 39 mph (63 km/h) and heavy rain. | 1         | Storm Surge           |   | A rapid rise in sea level from strong winds and low pressure.      |                  |   |
| 2         | Hurricane         | A tropical storm in the Atlantic Ocean or Northeast Pacific.                            | 2         | Coastal Flooding      |   | Inundation of coastal areas from surges and heavy rain.            |                  |   |
|           |                   |   | 3         | Social Impacts        |   | Effects on people (e.g. deaths, injuries, homelessness).           |                  |   |
| 3         | Typhoon           | A tropical storm in the Northwest Pacific Ocean.  | 4         | Economic Impacts      |   | Effects on money/jobs (e.g. damage to businesses, tourism, crops). |                  |   |
| 4         | Cyclone           | A tropical storm in the Indian Ocean or South Pacific.                                  | 5         | Environmental Impacts |   | Damage to ecosystems, farmland, and increased risk of landslides.  |                  |   |
| 5         | Eye               | The calm, low-pressure centre of the storm, surrounded by the eyewall.                  | RESPONSES |                       |   | CASE STUDY   |                  |   |
|           |                   |   | 1         | Prediction            | Using satellites, aircraft, and computer models to track storm paths. | 1  | Philippines      | Country struck by Typhoon Haiyan in November 2013.                                    |
| FORMATION |                   |   | 2         | Preparation           | Emergency kits, boarding up windows, creating evacuation shelters.    | 2  | Category 5 Storm | Winds of <b>170 mph (274 km/h)</b> and waves up to 15m.                               |
| 1         | Sea Surface Temp. | Needs ocean temperatures of 27°C or higher to provide heat and moisture.                | 3         | Evacuation            | Moving people away from vulnerable coastal zones.                     | 3  | Social Impacts   | Over 6,000 deaths, 4 million displaced, outbreaks of disease.                         |
| 2         | Evaporation       | Warm water evaporates, rising rapidly and carrying moisture upwards.                    | 4         | Short-term Aid        | Food, water, medical help, and rescue teams provided immediately.     | 4  | Economic Impacts | \$12 billion in damage; rice and sugar crops destroyed.                               |
| 3         | Condensation      | Rising air cools, water vapour condenses, releasing latent heat that fuels the storm.   | 5         | Long-term Management  | Building sea defences, improving housing, and disaster planning.      | 5  | Responses        | Early warning saved lives; aid from UN, USA, UK; “Build Back Better” recovery scheme. |
| 4         | Coriolis Effect   | Earth’s rotation causes the storm to spin (needed to develop the spiral).               |           |                       |   |  |                  |   |
| 5         | Convergence       | Winds converge at the ocean surface, forcing warm air to rise.                          |           |                       |   |  |                  |   |

# Renaissance Medicine Through Time | Year 9 | Term 2

| General Medicine |              |  |
|------------------|--------------|--|
| 1                | Alchemy      | an early form of chemistry   |
| 2                | Miasma       | bad air filled with harmful fumes  |
| 3                | Transference | when an illness or disease can be transferred from a person to an object |
| 4                | Anatomy      | the form and make-up of the body and its various parts                   |
| 5                | Dissection   | cutting up the body to look inside it                                    |
| 6                | Hospital     | a place where physicians would now observe and treat symptoms            |
| 7                | Epidemic     | when an illness becomes infectious on a widespread and mass scale        |
| 8                | Quarantine   | separating the sick from the healthy                                     |

| Medical Roles |              |  |
|---------------|--------------|--|
| 1             | Physician    | medical experts trained at universities with more experience of dissections and better access to medical books |
| 2             | Journeyman   | an experienced member of a profession who is not yet experienced enough to have his own business               |
| 3             | Quack Doctor | somebody who didn't have medical training but sold their services as a doctor or apothecary                    |
| 4             | Apothecary   | a person who studied herbs and mixed herbal remedies   |
| 5             | Searchers    | people who would go house to house looking for plague victims  |

| Miscellaneous |                         |  |
|---------------|-------------------------|--|
| 1             | Printing Press          | the invention that allowed letters/numbers to be printed on paper and duplicated               |
| 2             | Fugitive Sheets         | individual sheets of medical information a drawings for those that couldn't afford whole books |
| 3             | <i>Fabrica</i>          | Vesalius's famous book that included accurate anatomical drawings                              |
| 4             | Pest House/Plague House | a hospital that cared specifically for people with the plague or pox                           |

| Big Ideas & Thinking |                                   |   |
|----------------------|-----------------------------------|---|
| 1                    | Renaissance                       | rebirth (of ideas and thinking)   |
| 2                    | Secular                           | not religious or in any way connected with spiritual beliefs  |
| 3                    | Humanism                          | a move towards education, studying and learning to develop understanding and make decisions                     |
| 4                    | Royal Society                     | a group wanting to explain the world in secular (scientific) rather than religious terms (backed by Charles II) |
| 5                    | New World                         | the recently discovered North and South America   |
| 6                    | Iatrochemistry /medical chemistry | modern chemistry that looked to find chemical cures for diseases rather than rely on herbs                      |
| 7                    | Padua                             | a famous medical university   |
| 8                    | Reformation                       | the change of the country from Catholic to Protestant   |
| 9                    | Dissolution of the Monasteries    | when Henry VIII split from the Catholic Church, closed monasteries and took their land and money                |

| Illnesses and Diseases |           |   |
|------------------------|-----------|---|
| 1                      | Dysentery | very severe diarrhoea                     |
| 3                      | Syphilis  | a bacterial sexually transmitted disease  |
| 4                      | Plague    | an outbreak of the bubonic plague in 1348 |

| Key Questions  |  |  |
|--|--|--|
| How have beliefs changed from the medieval period/Middle Ages? | How do new ideas and technology challenge old ideas about medicine?        | What continuities are there i.e. what stays the same as the medieval period? |
| Which individuals impact on medicine? How and why?             | What changes occur in society that influences the development of medicine? | How much progress was made in the Renaissance period?                        |

| Information/Image/Diagram  |  |

| 6 | Allows expression in art and personal dress | Can destroy reputations         |

## KEY VOCABULARY

|   |                |   |
|---|----------------|---|
| 1 | Mind-map       | A diagram in which information is represented visually, usually with a central idea placed in the middle and associated ideas arranged around it. |
| 2 | Composition    | How an image is arranged.   |
| 3 | Cross hatching | Mark making used to build up tone, usually done with pen.   |
| 4 | Observational  | Drawing from an object or an image, rather than your imagination.   |
| 5 | Mark Making    | The range of different marks and patterns made when drawing, usually to show texture or tone.   |

### Drawing with biro

When drawing with biro you can use different marks to show a gradual change tone. Try using lines, dots and dashes and see what happens when you layer then up.

MARK MAKING IDEAS

## KEY QUESTIONS TO ANALYSE THE WORK OF OTHERS

|   |  |
|---|--|
| 1 | Who are they? (keep this bit brief and relevant).  |
| 2 | What is the subject of their work (what can you see?).   |
| 3 | What formal elements are in their work – colour, line, shape, space, pattern, form, tone, texture. |
| 4 | What do you feel is the meaning behind their work?   |
| 5 | Why are you looking at them?   |
| 6 | What materials/techniques have been used?  |

## KEY ARTISTS

|   |                              |  |   |
|---|------------------------------|--|---|
| 1 | Andrea Joseph                | <ul style="list-style-type: none"> <li>An artist and illustrator from South Wales. Her work focuses on every day subject matter. Her work is created with pens, colour pencil, gouache and collage. She creates posters, info graphics and maps using these techniques.</li> </ul>                     |    |
| 2 | Jim Dine b. 1935             | <ul style="list-style-type: none"> <li>American artist associated with the Pop Art movement. The Pop Artists broke traditions by using everyday common objects as the inspiration for their artworks. Jim Dine made expressive drawings, but sometimes also stuck real objects in his work.</li> </ul> |   |
| 3 | Michael Craig Martin b. 1941 | <ul style="list-style-type: none"> <li>Sir Michael Craig-Martin is an Irish-born contemporary conceptual artist and painter. He is well known for his bold and graphical paintings of everyday objects.</li> </ul>   |  |

## KEY VOCABULARY

|   |                |  |
|---|----------------|--|
| 1 | Cuisine        | a style of cooking of a particular country or region.  |
| 2 | Immiscible     | Where two liquids do not mix, e.g. oil and water.  |
| 3 | Emulsification | When two unmixable liquids are forced together, tiny droplets of one will spread throughout the second liquid. |
| 4 | Emulsifier     | An ingredient added to an emulsion to make it stable. E.g. egg yolk.   |

## EATING PATTERNS IN THE UK

|   |           |  |
|---|-----------|--|
| 1 | Breakfast | This is the first meal of the day. A cooked English breakfast of bacon, eggs, sausage, grilled tomato, mushroom is traditional, but not normally eaten every day. We tend to eat cereals, yoghurt, fruit, toast or porridge for breakfast. |
| 2 | Elevenes  | A mid-morning snack. Food such as fruit, nuts, seeds, biscuits can be eaten.   |
| 3 | Lunch     | Most people have a light, quick lunch – such as a sandwich, soup or salad. The exception is on a Sunday, when some have a roast meal.  |
| 4 | Tea       | Tea is often a snack. Afternoon tea is popular in tearooms and cafes. It consists of a pot of tea with a selection of small sandwiches, pastries and cakes.  |
| 5 | Dinner    | A meal eaten in the evening – sometimes this is called supper or tea.  |

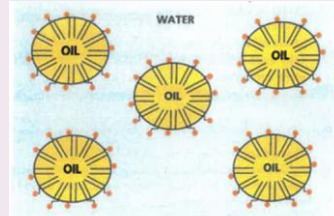

## TRADITIONAL BRITISH PRODUCE

|   |            |   |
|---|------------|---|
| 1 | Vegetables | Potatoes<br>Leeks<br>Parsnips<br>Sprouts              |
| 2 | Herbs      | Mint<br>Chives<br>Sage                                |
| 3 | Meat       | Lamb<br>Pork<br>Bacon<br>Poultry                      |
| 4 | Dairy      | Cheddar cheese<br>Milk<br>Double<br>Gloucester cheese |
| 5 | Fish       | Mackerel<br>Cod<br>Haddock<br>Salmon                  |

## INTERNATIONAL CUISINE & INGREDIENTS

|   |       |  |
|---|-------|--|
| 1 | Italy | Bread<br>Olives<br>Tomatoes<br>Gnocchi<br>Arborio Rice                       |
| 2 | India | Wheat<br>Rice<br>Spices; cumin, turmeric, chilli<br>Naan<br>Samosas<br>Kulfi |
| 3 | Spain | Paella<br>Frittata<br>Tapas<br>Churros                                       |
| 4 | China | Fish and seafood<br>Rice<br>Soups and Broths                                 |

## EMULSIFICATION

|   |   |
|---|---|
| 1 | Oil and water do not mix. They are immiscible.  |
| 2 | When 2 un-mixable liquids are mixed together tiny droplets of one will spread throughout the second liquid, forming an emulsion.  |
| 3 | An emulsifier can be added to make the 2 un-mixable liquids stable.   |
| 4 | <p>Red dot – hydrophilic head which is attracted to water<br/>Black tail – hydrophobic – hates the water and is attracted to the oil.</p>  |

KEY VOCABULARY

|   |                 |   |
|---|-----------------|---|
| 1 | Design Movement | A Design movement is the collective title given to a group of artefacts/artworks that share the same ideals, style or technical approach.   |
| 2 | Chronological   | A record of events in the order in which they occurred.   |
| 3 | 2D design       | Software which allows you to draw digitally.  |
| 4 | Net             | A net is what a 3D shape would look like if it was unfolded.  |
| 5 | Laser cutter    | As the name suggests, laser cutters create patterns and designs by cutting into materials. A powerful laser beam is the source that melts, burns, or vaporizes the material.  |
| 6 | CAD             | Computer Aided Design.  |
| 7 | CAM             | Computer Aided Manufacture.   |
| 8 | LED             | A light emitting diode.   |
| 9 | Soldering       | Soldering is a joining process used to join different types of metals together by melting solder. Solder is a metal alloy usually made of tin and lead which is melted using a hot iron. The iron is heated to temperatures above 600 degrees Fahrenheit which then cools to create a strong electrical bond. |

KEY DESIGN MOVEMENTS & INFLUENCES

|   |             |   |
|---|-------------|---|
| 1 | Art Nouveau | Linear patterns of Japanese prints.<br>French Post-impressionist art.<br>Arts and Crafts Movement.  |
| 2 | Art Deco    | End of WW1, growth of mass production.<br>Range of international styles coming into the public eye. |
| 3 | De Stijl    | Means ‘The Style’ in Dutch.<br>Reaction against the decorative art deco.                            |
| 4 | Memphis     | Rebelling against functional modernism.<br>Art Deco.<br>Pop Art.                                    |

KEY DESIGNERS & FEATURES OF THEIR WORK

|   |             |   |   |
|---|-------------|---|---|
| 1 | Art Nouveau | Alphonse Mucha.<br>Louis Comfort Tiffany.<br>Charles Rennie Macintosh.    | Floral and decorative patterns.<br>Elegant and graceful lines.<br>Use of traditional materials.   |
| 2 | Art Deco    | Clarice Cliff.<br>Eileen Gray.<br>Rene Lalique.<br>Walkter Dorwin Teague. | Stylised geometric shapes.<br>Bold colours often paired with black, chromes and metallic.<br>Sunburst motifs.   |
| 3 | De Stijl    | Theo van doesburg.<br>Piet Mondrian.                                      | Simple.<br>Primary colours.<br>Geometric forms.   |
| 4 | Memphis     | Ettore Sottsass.<br>Michele De Lucchi.<br>Martine Bedine.                 | Less is Bore principles.<br>Post-modernism design.<br>Bright, colourful and sculptural design.<br>Simple and Abstract forms.<br>Use of non-traditional materials. |

| Key Performance Skills |                              |  | Strands of Drama Lessons |  | Key Characters |                  |   |
|------------------------|------------------------------|--|--------------------------|--|----------------|------------------|---|
| 1                      | Vocal Expression             | Using voice (tone, pitch, pace, and accent) to convey character and emotion. | 1                        | <b>Performing:</b><br>Presenting your drama to an audience.  | 1              | Eddie Lyons      | The upper-class twin raised by Mrs. Lyons. Kind, polite, and academic but naive about class struggles.  |
| 2                      | Physicality and Movement     | Using body language, gestures, and posture to show character and age.        |                          |  | 2              | Mickey Johnstone | The working-class twin who faces hardship, unemployment, and depression. Starts as playful and carefree but becomes troubled.   |
| 3                      | Characterisation             | Creating a believable character through voice, movement, and personality.    | 2                        | <b>Devising:</b><br>Creating your own performance.   | 3              | Mrs Johnstone    | A struggling working-class mother who gives one of her twin sons away due to financial hardship. Warm but superstitious.  |
| 4                      | Emotional Range              | Expressing different emotions convincingly to engage the audience.           |                          |  | 4              | Mrs Lyons        | A wealthy but lonely woman who manipulates Mrs. Johnstone into giving up one twin, later becoming paranoid and controlling.   |
| 5                      | Interaction and Staging      | Using space, positioning, and relationships to enhance storytelling.         | 3                        | <b>Appreciation:</b><br>Understanding and commenting on your own performance and the performances of others. | 5              | Linda            | Mickey and Eddie’s childhood friend, who later becomes Mickey’s wife. Caring and loyal but caught in a tragic love triangle.  |
| 6                      | Awareness of Genre and Style | Understanding the play’s musical and social realism elements.                |                          |  | 6              | Narrator         | A mysterious figure who warns of fate and class conflict, reinforcing the play’s themes of destiny and tragedy.   |
| Key Design Skills      |                              |  | 4                        | <b>Designing:</b><br>Lighting, Sound, Costume and Set design that help create a vision.                      | 7              | Sammy Johnstone  | Mickey’s rebellious older brother, a troublemaker who turns to crime and influences Mickey.   |
| 1                      | Set Design                   | Creating locations that reflect class and setting.                           |                          |  | Key Themes     |                  |   |
| 2                      | Costume Design               | Dressing characters to show personality, class, and time period.             | Rehearsal Strategies     |  | 1              | Social Class     | The play highlights the stark differences between the working-class Johnstone and the middle-class Lyons, showing how social class impacts opportunities and life outcomes. |
| 3                      | Lighting Design              | Using light to create mood, focus, and atmosphere.                           | 1                        | Systematic repetition  | 2              | Fate             | The idea that Mickey and Eddie’s tragic end is inevitable, reinforced by superstition and the Narrator’s warnings.  |
| 4                      | Sound Design                 | Adding music and effects to enhance emotion and realism.                     | 2                        | Rehearsal discipline   |                |                  |   |
| 5                      | Props and Set Dressing       | Placing objects to support character and setting.                            | 3                        | Planning of rehearsal  | 3              | Nature/ Nurture  | The play explores whether personality and success are shaped more by upbringing (nurture) or inherent traits (nature), as seen in the contrasting lives of the twins.       |
| 6                      | Makeup and Hair Design       | Styling to show age, class, and character traits.                            | 4                        | Respond to feedback  |                |                  |   |
|                        |                              |  | 5                        | Own Research   |                |                  |   |

# Python Key Words

|                     |   |
|---------------------|---|
| Operators           | Numerical values + - / * = or Comparative values >= == !=   |
| Expressions         | A combination of literals, variables, operators, and function calls that produce a value when programmed. |
| Index               | A value order of variables in a list.   |
| Append              | To add to e.g. adding an extra item to an (array) list.   |
| Membership Operator | Finding a specific value inside an (array) list.  |
| Iterator            | An object that contains a countable number of values.   |
| For statement       | Will repeat codes, values for a set amount of time.   |
| Sequence            | The order of events that are used to produce and algorithm/computer program.                              |
| Selection           | Use of If, Elif and Else to create a program that makes decisions.  |
| Iteration           | A program that will loop and repeat code.   |

## Arrays

```
1 planets = ["Mercury", "Venus",  
2           "Earth", "Mars",  
3           "Jupiter", "Saturn",  
4           "Uranus", "Neptune"]  
  
5 position = 3  
6 object = planets[position]  
7 print(object)
```

When the program is executed, this is what the list of planets will look like in memory.

Item numbering in lists begins with 0.

## Iterators

Are the objects that's are repeated in a computer program

```
lucky = 13  
  
print("Can you guess my lucky number?")  
guess = int(input())  
  
if guess == lucky:  
    print("Amazing, you guessed it")  
else:  
    print("Sorry, it's not", guess)  
  
print("Nice playing with you")
```

## Choices

**Computers make decisions based on the input given and will respond to the action (statement that is true)**

| Frantic Assembly Vocabulary |                    |   | FA Company Information |                   |   | Frantic Assembly Process |                       |  |
|-----------------------------|--------------------|---|------------------------|-------------------|---|--------------------------|-----------------------|--|
| 1                           | Round              | Going around your partner in any direction or way.                              | 1                      | Founder           | Scott Graham  | 1                        | Round-By-Through      | Creating strings of movements using the RBT technique.   |
| 2                           | By                 | Reducing the amount of space between you and your partner.                      | 2                      | Date              | 1994  |                          |                       |  |
|                             |                    |   | 3                      | Company Aim       | To create innovative, dynamic theatre through physical movement and collaboration, making performance accessible while inspiring creativity and engagement. | 2                        | Hymns Hands           | Creating a string of movement using improvisation and Hymns Hands technique.                                       |
| 3                           | Through            | Moving through your partner or their space.                                     | Expressive Skills      |                   |   | 3                        | Chair duets           | Working in a pair or group, using but RBT and HH while on a chair to make a string of movement.                    |
| 4                           | Hymns Hands        | Hand placements, moving your own hands and your partners hands.                 | 1                      | Focus             | Where and how a dancer directs their gaze or attention.   | 4                        | Transitions           | Build a transition between the R-B-T into the Hymns Hands and a transition from the Hymns Hands to the Chair Duet. |
| 5                           | Chair Duets        | Using Round By Through and Hymns Hands on chairs next to each other or a bench. | 2                      | Projection        | Radiating energy outward to connect with the audience.  | 5                        | Music                 | Find music to match your chosen theme/storyline.   |
| 6                           | Physical Theatre   | A performance style focusing on the movements of the body.                      | 3                      | Facial Expression | Using the face to convey feeling or mood.   |                          |                       |  |
|                             |                    |   | 4                      | Musicality        | Responding to the music’s rhythm, mood, or phrasing.  | 5                        | Add Expressive Skills | You now add in the expressive skills to help show the storyline.   |
| 7                           | String of Movement | A connected sequence of movement that flows smoothly together.                  | 5                      | Use of space      | Deliberate spatial choices that express emotion or character.   | 6                        | Clean and Rehearse    | Practice the dance and make any final changes to ensure the story makes complete sense.                            |
|                             |                    |   | 6                      | Emphasis          | Highlighting specific movements to draw attention or tell a story.  |                          |                       |  |
| 8                           | Improvisation      | Making up and exploring with the movement without any planning.                 | 7                      | Characterisation  | Embodying a role or persona through movement.   | 7                        | Performance           | Perform the piece to an audience with confidence and professionalism.  |
|                             |                    |   | 8                      | Phrasing          | Grouping and shaping movements to give them expressive flow or emphasis.  |                          |                       |  |

Year 9 | Term 2

How do I compose using repeated rhythms and patterns?

Music

| Structuring a track |                          |   | Vocabulary    |                        |  |
|---------------------|--------------------------|---|---------------|------------------------|--|
| 1                   | Intro                    | A simple ostinato or loop introduces the song.  | 1             | Ostinato               | A short, repeating pattern.  |
| 2                   | Build-up                 | More layers and instruments gradually enter.  | 2             | Loop                   | A repeated section of music, often using in digital music composition.                   |
| 3                   | Main Section             | The full texture, including melody, bassline, and harmony.                                  |               |                        |  |
| 4                   | Break down               | Removing layers to create contrast.   | 3             | Motif                  | A small musical idea that can be developed and repeated.                                 |
| 5                   | Outro                    | Ending the piece by fading out or gradually dropping instruments out.                       | 4             | Layering               | Adding multiple musical lines to create texture.   |
| Composing Tips      |                          |   | Core Concepts |                        |  |
| 1                   | Start with a simple Idea | A rhythmic or melodic loop.   | 1             | Ostinato               | An ostinato is a short, repeating pattern found in melody, rhythm, or harmony.           |
| 2                   | Contrast                 | Change instruments, volume, rhythm, intensity for variety.                                  | 2             | Creating an ostinato   | Simple. Short, how will it fit with other instruments, experiment with pitch and rhythm. |
| 3                   | Listen to examples       | All music has ostinati, think of the songs you like that have stand-out repeating patterns. | 3             | Structuring a track    | Intro, build up, main section, breakdown, outro.   |
|                     |                          |   | 4             | Developing an ostinato | Layering, variation, texture changes, syncopation.                                       |
|                     |                          |   | 5             | Tempo                  | The measurement of the speed of music.   |
|                     |                          |   | 6             | Polyrhythm             | Two or more contrasting rhythms played at the same time.                                 |
|                     |                          |   | 7             | Texture                | How different musical layers interact such as melody and harmony.                        |
|                     |                          |   | 8             | Ostinati               | The plural of ostinato. Taken from Italian language.                                     |

# FULLY UTILISE YOUR KNOWLEDGE ORGANISERS

**Use the following templates alongside the corresponding instructions to carry out your independent work.**

## SKETCH NOTES

### HOW DO I MAKE USEFUL SKETCH NOTES?

- 1) Pick a focus area for your notes – this could be a topic, theme, exam question, unit question, etc.
- 2) Make notes in a logical order but rather than making detailed written notes, use a range of the following techniques:
  - Use upper case (capital letters) to emphasise particular words.
  - Turn a words into images e.g. the A in shArk turns into a fin;
  - Add images and/or icons into the text;
  - Use diagrams and tables to break down key areas,
  - Use arrows and lines to link different things together;
  - Use different shapes, thought-bubbles, etc.
  - Use a range of colours to emphasise different aspects of your notes/page.

*Once you have completed your sketch note page try photocopying it in black and white and then use colours to RAG-rate the information – you will then create a real focus for your revision by prioritising first the **R**ed and then the **A**mber!*

## HOW DO I CREATE AN EFFECTIVE MIND MAP?

- 1) Decide on the overall focus – this could be a topic/unit question, an exam question, key theme, etc – and then write this in the centre of the page.
- 2) Break this down into key areas, factors, ideas, etc and add these as main branches around the centre.
- 3) Break these main branches down further by adding more information – each main branch might break down into several more and each of these into several more.
- 4) Colour-code your branches, highlight key information and add any images, icons, diagrams, etc.
- 5) TOP TIP: Write on your branches and only use the most key information and words – this will help you to fit as much as possible on one page!

*The aim of a mind-map is to fit as much as possible all on one page! Therefore, avoid writing in full sentences and focus on using the branches to organise your notes.*

## HOW DO I CREATE AN EFFECTIVE MIND MAP?

- 1) Decide on the overall focus – this could be a topic/unit question, an exam question, key theme, etc – and then write this in the centre of the page.
- 2) Break this down into key areas, factors, ideas, etc and add these as main branches around the centre.
- 3) Break these main branches down further by adding more information – each main branch might break down into several more and each of these into several more.

*The aim of a mind-map is to fit as much as possible all on one page! Therefore, avoid writing in full sentences and focus on using the branches to organise your notes.*

## HOW DO I MAKE FLASH CARDS?

- 1) Think about what you want the focus of each card to be – it could be a key question, piece of vocabulary, exam question, factor, etc.
- 2) Record this on the 'front' card (left-hand column) – adding an image, diagram, some colour, etc, to make it memorable, is helpful. You can also number your cards.
- 3) Think about what information links to this – it could be written notes, an answer to a question, a definition, potential ideas, etc.
- 4) Record this on the 'back card' – try to break it down into bullet-points, use icons and imagery, colour, diagrams, once again to make it memorable.
- 5) Cut your cards out, fold the middle and glue them together – you can now use them to test yourself... or even better, get somebody else to test you.

FRONT (key term or question)

BACK (answer)

Why not RAG-rate your cards?  
 (Red = you really don't know,  
 Amber = you sort of know, Green = you completely know and understand).  
 Then, every time you re-test yourself, you can re-RAG-rate your cards. You could do this along the bottom of each card.

## HOW DO I DEVELOP MY EXPERT WRITING?

- 1) Start by putting your topic title or question as a sub-heading.
- 2) Begin by identifying the key points or aspects and writing a summary of this – think about the key vocabulary needed.
- 3) Next, try to develop these main ideas one at a time – aim to use connectives to help you do this e.g. because, therefore, so.
- 4) Now try to link these ideas to examples or evidence – you can do this separately or alongside each area in ‘step 3’.
- 5) To complete your expert piece of writing, aim to summarise the overall main point or argument or conclusions.

[illegible]

*Talk to your teacher about the specific types of language, sentences and vocabulary that you can use to develop your 'writing like an expert' – this can vary from subject to subject and skill to skill (This is why teachers often provide you with sentence starters).*

## HOW DO I MAKE AN EFFECTIVE LOW-STAKES QUIZ

- 1) Choose something on your knowledge organiser and write a question where this is the answer – write this in the top box of the card.
- 2) Write 3-5 possible answers in the bottom box’ – label these with numbers or letters e.g. a) to e).
- 3) Write the correct answer on the back of the card for future reference, so that you can easily check if you were right or wrong.
- 4) Put your low-stakes quiz somewhere safe and return to it a few days/weeks later - test yourself or get somebody else to test you!

## EMPOWERING POTENTIAL

## EMPOWERING SUCCESS

**Build foundations first:** Knowledge Organisers provide the key 'foundations' to a topic or unit acts as a vital reminder of the key ideas, facts, information and concepts.

**Retrieve and recall:** the content of Knowledge Organisers are a regular part of the starts of lessons, lesson activities and discussion, self-testing and teacher assessment.

**Revise:** Knowledge Organisers are a fantastic starting point for further revision - they can be used to self-test, develop revision notes, create further revision resources.

**Succeed:** Ultimately, knowledge is power. Utilising the content of a Knowledge Organiser will provide the power to access the next step in learning.
